

600W – STARTER PACKAGE

PRODUCTCODE: AED-PK-HS-1001-1
BRAND: AED TECHNOLOGIES

HOME SOLAR SOLUTIONS

Product Description

The 600W- Starter Package is ideal for small businesses, homes, small offices, workshops etc. This package provides between 2kWh to 2.5kWh of electricity per day. The energy is sufficient to provide power for 24 hours a day. This package is ideal if you intend to power LED lights, Fans, TV, laptops, phones, dstv, small printers etc.

Product Features:

The Charge Controller has an LCD display that monitors the solar capacity from the solar panels. It also displays the battery level at all times.

The KOYAMA battery has a low self-discharge and long service life. It also has leak-proof construction and fast deep discharge recovery.

The 300W Monocrystalline solar panels have a design life of 25 years.

The 2.5 KVA inverter has protection against anti-charge at night, battery over charge, has over-discharge protection and joint-reversed of solar modules.

Technical

Solar Panels: Peak Power- 300W
Design Life: 25 years

Monocrystalline

Charge Controller: 40A PWM

Battery: 12V/200AH Sealed Lead Acid Battery

Discharge: Low self-discharge

Design Life: Long Service Life

Inverter: 12/24 VDC 2.5 KVA System

Pure Sine Wave

Efficiency: 90%-95%

Includes

2 x 300W Mono Solar Panels

1 x 2.5KVA Inverter

2 x 12V/200AH Battery

1 x 40A PWM Charge Controller

Installation

Ideal for

Homes

Small Businesses

Small Offices
