

ADVANCED CONTROL 4 PACKAGE

PRODUCT CODE: AED-HA-PK-1001-1
BRAND: AED TECHNOLOGIES

SMART HOME

Product Description

This modern automation system delivers power and performance on one system that co-ordinate the technology in your house or office into complete, brilliant experiences-interactions that fit your lifestyle and it is easy to operate. With one-touch you can dim the lights, stream high-resolution music, turn up the heater or air conditioner, lock the doors and arm the security system. You can also check in on cameras to see who's ringing the doorbell from wherever you are. You can control your lightening, door locks and camera from anywhere. It is a smarter living experience that you will wonder how you ever lived without.

Product Features:

- Certified HDMI with audio and video capability delivers reliable connectivity to today's televisions and receivers.
- Intuitive and comprehensive interface that groups all of your system's functions into one app rather than a collection of separate apps. It is controlled from a touch screen remote.
- Reliable Operation: This home automation system is custom-designed and more secure and dependable
- Scalable design: The features and benefits of the automation system can be expanded, whether you want to add more rooms or you want to add an additional sub-system.
- The monitor system and app function with control4 satellite internet.
- Smart lighting, Entertainment, Video intercom.
