

SOLAR IRON

PRODUCT CODE: AED-EA-PK-1000-1
BRAND: AED TECHNOLOGIES

ENERGY SAVING APPLIANCES

Product Description

The 12V DC battery pressing Iron is unique, energy efficient and can be connected either to a 12V battery or a solar panel. Say goodbye to unstraightened cloth due to poor power supply as this solar DC battery is lite and it's not AC but DC which means you can connect it directly to your battery without the need for a controller or an Inverter.

Product Features:

- Automatic temperature control & adjustable system (with thermostat)
- It can be connected directly to a solar panel or battery
- Has a red power indicating light
- It can work for 5~6 hours a day using a 100Ah battery
- It is easy to use.

Technical

Voltage: DC 12V (can work with solar panel or battery)
Max. Watt: 150W/12.5A
Max. temperature: 220 degree celcius
Energy saving: 1 minute hot for 100C; 25 minutes hot for 200C
Material: Polypropylene body and aluminium baseplate

Includes

1 x Solar Iron
1 x Battery Clamp

Ideal for
